This session gives law firm administrators a practical framework for managing AI use, including confidentiality, cybersecurity, vendor risk, business continuity, human review, and insurance readiness. Attendees will leave knowing what questions to ask, who should be involved, and where their firm should start.

Speakers

Stephen Lake | Chief Operating Officer, BroCoTec

Stephen Lake oversees BroCoTec's operations and service delivery, helping law firms maintain secure, reliable technology. A previous ALA Cyber Chapter presenter, he brings an operational perspective to cybersecurity, business continuity, and responsible AI adoption.

Brad Broussard | Vice President of Sales, BroCoTec

Brad Broussard works with law firm leaders to align IT, cybersecurity, and AI adoption with business needs and client confidentiality. He has previously presented ALA Cyber Chapter sessions on cybersecurity and cyber insurance.
